

FW-DVMR

JV Series - Digital Video Multiplex Recorder

- Expandable hard disk drive technology allows addition of drives without pre-formatting
- Removable HDD - Hot Swappable (Formatting Not Required)
- Up to 800GB Internal Storage
- Remote viewer software included
- Status Reports
- RS-422 / 485 for PTZ Speed Dome and Keypad Controller

The FW-DVMR is a full-featured standalone digital video recorder that offers unparalleled video quality and maximum reliability. The DVMR is extremely easy to operate, effortlessly integrates with existing video surveillance systems, and can be utilized in a variety of environments. Connect up to 300 DVRs simultaneously and receive each DVR's status report in real time.

The FW-DVMR enables the user to record motion-activated digital video and display multiple cameras simultaneously from the camera site or a remote location. Our innovative expandable Hard Disk Drive technology does not require Hard Disk Drives to be pre-formatted and provides industry-leading stability. Whether your objective is loss prevention, management, access control, remote monitoring, or home security, the FW-DVMR is sure to surpass the goals of your application.

The FW-DVMR includes a 4 or 8 channel Digital Video Multiplex Recorder, remote control, remote viewer software, 12VDC power supply, and user's manual. Optional 250GB and 320GB Hard Drive's are also available.
