

IN-IN20

Sub Head End Power System

- Provides power, video and RS485 routing for up to eight cameras using UTP CAT5E cable
- Power four 12VDC cameras rated at 1Amp continuous up to 1000ft.
- Cable management ability for up to 12 standard CAT5E wires
- Locking system for limited access

The IN-IN20 can provide power for up to four cameras, while the IN-IN21 has the capability of eight. This distribution source routes the four video signals to one CAT5E cable reducing wiring costs by more than half! An additional CAT5E cable provides signal to the IN-IN20/21 where it is distributed to up to four cameras.

IN-IN20
(4-Channel)

IN-IN21
(8-Channel)
